Dedication

Hands are very expressive and can be made to represent any walk of life. It is for this reason that we have chosen hands as our theme for this year's Mater Dei.

In keeping with this thought, we, the class of 1959, gratefully and lovingly dedicate our yearbook, Mater Dei, to the many, many hands that contributed and aided in the planning, building and maintenance of our new high school.

We, the students and receivers of this bounteous favor, place all our thanksgiving in the beautiful hands of Christ, and all our petitions and pleas in the living and tender hands of Mary to whom we dedicate and devote ourselves.

CONGRATULATIONS

. . . And A Suggestion

First, congratulations to the graduating seniors for having attained this important goal in your lives. It is always a pleasure to keep in touch with young people and to offer our best wishes for your continued success.

Secondly, may we also offer a suggestion to all students regarding the selection of a lifetime career? Such a decision is one of the most difficult in your young lives. It is also one of the most important.

Undoubtedly you are aware of the needs, today and in the future, for scientifically and technically trained people. In the defense of our country, through the use of complicated, scientific weapons or in the continued improvement of our standard of living through industrial progress—there is a need of educated and technically trained young people. If you are interested in the sciences and mathematics, we urge you to seriously consider a career in engineering or some technical field.

But, regardless of your choice, we hope that with the aid of your parents and teachers you will study and work toward a career which will bring you happiness and a sense of achievement.
